- 

## PROJECTS

### LANDING PAGE

A landing page is a standalone web page, created specifically for a marketing or advertising campaign. It's where a visitor "lands" after they click on a link in an email, or ads from Google, Bing, YouTube, Facebook, Instagram, Twitter, or similar places on the web.

### PORTFOLIO

It is a collection of a wide range of assets that are owned by investors. The said collection of financial assets may also be valuables ranging from gold, stocks, funds, derivatives, property, cash equivalents, bonds, etc.

## **CALCULATOR**

A calculator is a device that performs arithmetic operations on numbers. Basic calculators can do only addition, subtraction, multiplication and division ...

## **CONTENT MANAGEMENT TOOL**

A content management system (CMS) is software that helps users create, manage, and modify content on a website without the need for technical knowledge. In other words, a CMS lets you build a website without needing to write code from scratch (or even know how to code at all).

## **PROJECT MANAGEMENT SYSTEM**

Project Management Tool is a set of software designed to help project teams to plan a project, track & manage the projects to achieve the defined project goals within the time. It also helps team members to collaborate effectively and accelerate the projects to meet the specified constraints.
